Opening type	Outwards to the right
Lifting eye	no

This is how beautiful and versatile modern industrial design can be - and all that at a reasonable price. Yet the innovative SmartUnit room system has even more to offer: a clever tongue-and-groove connector system, an online configurator and a wide range of accessories. You can also adapt the room system to your personal requirements with the optional accessory packages. Thanks to the ingeniously simple connector system, the SmartUnit can be set up and moved in the shortest possible time and delivery times are unbeatable.
