Don't leave your smokers out in the rain any longer! With the "Jena" shelter system, you can quickly and economically offer a shelter that requires only 2.25 m² of floor space. The hot-dip galvanised flat roof steel construction and rear/side walls made of high-quality corrugated polycarbonate guarantee a long service life. For comfort and cleanliness, handrails are provided as standard and ashtray or waste bin as an accessory. Also available as a "Jena Maxi" variant with double the space.
