That's what every cyclist wants: a parking space where his bike is optimally protected against damage and theft. The Frame Rest Parker 2500 XBF offers just that. Here, the diagonal frame rests encased in signal red plastic protects against vandalism or accidental crushing and rim damage. A generous spacing of 500 mm single-sided or 540 mm double-sided ensures maximum parking comfort. Optimised theft protection and space-saving low/high setting. Ground mounting brackets included.
